Bacon Softies, Rodent Diet

Soft, pelleted, nutritionally-complete diet with irresistible rich bacon flavor for rodents requiring special care. Also makes a scrumptious treat.

Features and Advantages:

Excellent soft diet for recovering or debilitated rodents and weanlings

Ideal for Transgenic or "Knock Out" Mice with chewing difficulties

Replaces mush diets made in-house that are labor intensive, often nutritionally incomplete, messy and possibly contaminated

Appealing bacon flavor stimulates appetites and may help prevent cannibalism

Completely balanced diet

Nutritionally assayed for complete diet control

Produced in a GMP environment assuring accurate and consistent diet composition

Rodent Bacon Softies can be modified to meet your specific needs. Call to discuss formula options

Now available in STERILE, 1 kg resealable bags

Size/Form:

Pellets Approximately 1 1/2" long x 1/2" diameter

Certification:

The nutritional content on every lot of diet is analyzed by an independent laboratory prior to shipment. The results of analysis are available upon request.
